Notes: Each fall enrollment period runs from July 1 to December 31 with degree status measured on July 1. The sample includes 2012-2016 applicant cohorts. These outcomes partition the sample in each period; students who dual-enrolled in both two and four-year colleges during the same period are coded as attending four-year colleges only. Students who earned both associate's and bachelor's degrees are coded as bachelor's degree holders. Regressions control for strata dummies.
