Notes: This table reports sample counts for each enrollment time horizon. Each sample draws on data from available applicant cohorts: 2012-2016 for year one; 2012-2015 through year two; 2012-2014 through year three; 2012-2013 through year four; and 2012 only for year five. Column 4 describes the primary analysis sample, which includes control applicants and STBF award winners. Column 5 includes control applicants, STBF recipients, and COS award winners from the University of Nebraska strata. COS awards were not offered in 2012, so year five outcomes in the COS sample are not yet available.
